

Leadership and Culture Health and Safety Representative (HSR) Refresher 1 Day Course

This course, delivered in partnership with Pegasus (RTO No. 91028), provides elected HSRs with additional knowledge and skills required for HSRs under NSW WHS legislation. Participants improve and refresh their capacity to apply the principles of workplace consultation as an integral part of an effective safety management system.

The course focuses on:

- Understanding the requirements of the 2011 NSW Work Health and Safety Act and the 2017 Regulation
- Understanding how the legislation applies to their role as elected HSRs
- The knowledge and skills necessary to use HSR powers under the WHS legislation in issuing Provisional Improvement Notices (PINs) and directing unsafe work to cease

Practical scenarios relevant to your organisation are used so that the participants can extract full value by experiencing how their skills can be implemented.

Participants are supported by experienced facilitators who have had many years of hands on experience.

We use straightforward safety culture and performance frameworks that work on an individual, team, and organisational level.

Successful completion of the course results in a SafeWork NSW Approved Certificate.
