

## Leadership and Culture Short Programs

Effective leadership is essential for a constructive and sustainable culture. We offer programs that help prepare organisations for the opportunities and challenges of the future.

---

We provide our clients with a unique offering that helps people learn in a challenging, enjoyable environment. Our programming is specially tailored to address contemporary, sector-specific challenges. We incorporate your challenges and materials so that participants are genuinely enabled to link their learning back to their work.

---

The programming has a strong basis in theory that works in the real world, not just in textbooks. It is delivered by facilitators who have themselves had many years of hands on experience.

---

Participants are supported to explicitly track progress and improvements to clearly demonstrate return on investment. Our range of short programs provide you with long term results.

---

**LKSQUAERO**
